## 2022/2023 BROCHURE

We are pleased to be able to send you our 2022/23 brochure.

We are happy that despite all the trials and tribulations 2021 was one of our busiest years, though it has also been a record breaking year for importing costs.

Thank you for your loyal and continued support. It is always appreciated.

As always we are happy to discuss any requirements for Bespoke Baskets and Direct Container Deliveries.

We would like to take this opportunity of wishing you all a very successful year.

*Tom Gilman*

A wicker basket filled with fresh green herbs and leafy vegetables, set against a background of a brick wall and tall green plants. The basket is made of light-colored wicker with a woven pattern and a handle. It is filled with various green leafy vegetables, including what appears to be spinach and other leafy greens. The background shows a brick wall and tall green plants, possibly chives or scallions.

# MATERIALS AND LININGS

The willow used in the production of Home Products Basketware baskets is cropped at two different times of the year. There are many types of willow rods known as “withies” used in basket making.

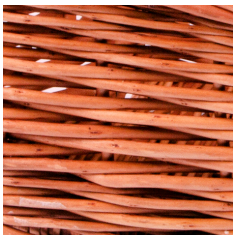

They are all woven by hand in a time consuming process with great skill and quality. We will be adding new and different materials to our large range all the time.

## WILLOW

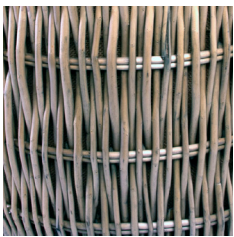

### BUFF WILLOW

The buff willow is cropped mainly in November, but sometimes not until December. It is the most popular and is obtained by boiling the willow, to release the natural colourant tannin from the bark into the wood. The bark is then stripped from the willow revealing the characteristic golden colour.

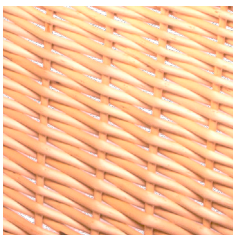

### DOUBLE STEAMED WILLOW

It is treated the same as the buff willow but is boiled twice for a deeper, richer colour.

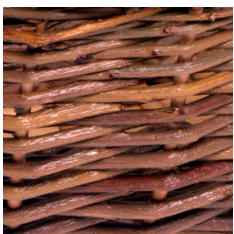

### MELLOWED BUFF WILLOW

It is treated the same as the buff willow but is bleached to remove the colour and then dyed for colour.

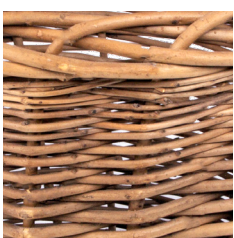

### WHITE WILLOW

The white willow is cropped between July and August while the sap is still rising and stripped of it's bark straight away without boiling.

### GREEN WILLOW

The green willow is used in its natural state, having gone through no treatment process. The name is from the raw state not necessarily the colour.

### WILD WILLOW

Wild Willow is uncultivated and grows naturally by the river. This is in it's natural state and untreated.

### BAMBOO

Stips of Bamboo woven around willow spokes with willow borders.

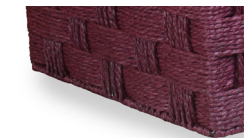

### WATER HYACINTH

Water Hyacinth reed woven around a metal framework.

### SEAGRASS

Seagrass woven around a metal framework.

### PAPER ROPE

Paper twisted around an inner strand and used to Weave around a metal framework. The paper is dyed before making into rope.

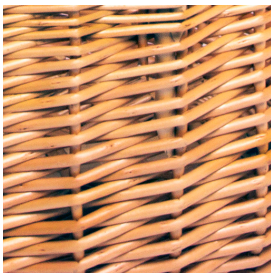

### WOOD WEAVE

Strips of wood woven around the willow spokes with willow borders. The wood can be natural or dyed.

# MATERIALS AND LININGS

## WEAVING

After cropping the willow is then dried naturally in the sun. When dried it is bundled together and tied up in different lengths ready for weaving. When weaving the willow our highly skilled craft artisans can use several different methods, here are just a few:-

### SINGLE OR RANDED WEAVE

This is when a single strand is used in the weaving. This method takes a lot longer to finish but gives the basket a very strong finish.

### DOUBLE, TRIPLE OR SLEWED WEAVE

This is when multiple strands are used in weaving, this is a much quicker method, however it requires a very highly skilled maker

### WALING

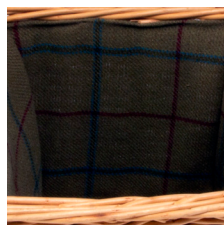

This weave uses 3 rods together, twisting over and under they form a strong band.

## LININGS

There are many options for linings that are used for all sorts of reasons. They can make the baskets more practical or decorative depending on the situation the baskets are being used in. The linings in our baskets are either sewn in to the baskets or they are just tied in, which makes them removable.

### HESSIAN

### TWEED

### OATMEAL

### COTTON

# STRAPS AND HANDLES

## STRAPS

LEATHER STRAPS

We use a variety of ways of fastening our lidded baskets, there are various options for the materials including leather and leatherette. We are also able to provide bespoke colouring and embossed leather labelling or straps.

LEATHER CLASP FASTENINGS

## BESPOKE BRANDING

EMBOSSED LEATHER

LEATHER CAN BE REAL LEATHER OR PU LEATHER

## HANDLES

INTERGRATED

There are many options for handles on baskets including intergral, external and rope. Dependent on the use of the basket the requirement of the handle can change.
